What Is The Dollar Index?

The (US) Dollar Index (USDX/DXY) is an index that measures and reflects the strength...

or the weakness...

of the US Dollar against a "basket" of 6 other major currencies. Here's the basket and it's weighting

Born in March 1973 the Dollar Index was set at 100. It seen a High of around 150 in February 1985 and a Low of around 70 in March 2008
